

Acquisition ... *drives* GROWTH

Target audiences are identifiable. They respond to unique appeals and through preferred channels. Are you effectively driving *acquisition* growth?

ac-qui-si-tion: [ak-wuh-zish-uhn]
Identifying and converting prospects through cost-efficient, funnel-driven processes.

Market Challenges

Cross-media *acquisition* programs and tracking are inherently inefficient because they are “silo-based”.

The lack of a single, rules-based engine to manage, track and measure all cross-media *acquisition* appeals magnifies the problem significantly.

Benefits

Single platform for cost-efficient, high-return *acquisition* programs that track, monitor and compare campaigns across channels.

Echo Solutions

Echo's Mirror™ Platform is an innovative, rules-based solution that manages, tracks and measures Print, Web, Social Media, E-Marketing and Phone *acquisition* appeals or “events” in a seamless, integrated process.

Acquisition Model Development

Brand Messaging Content Marketing

Offer & Appeal Research

Personalized Microsite / Mirror™ Platform

Personalized Variable Print & Fulfillment

Profiling / Targeting

ROI Metrics Tracking & Reporting

Social Media Campaigns

Strategy and Planning

Are your *acquisition* efforts silo-based or integrated?

Do your current efforts provide a targeted and personalized experience you can track across channels?

Acquisition ... *drives* **GROWTH**
